**Test your child now for the...
...speech and language skills...
...that will last a lifetime**

Your child's ability to communicate may be the single most important factor in his/her development of academic and social skills.

St. Thomas More School has a long history of supporting the provision of speech and language services in the school environment. The therapists at *Emerge - A Child's Place* are pleased to continue to offer these services for St. Thomas More students and parents for the 2017-2018 school year.

Speech and language screenings will be offered during the first few weeks of school to help identify those children who are in need of further evaluation and/or therapy. This screening program also provides your child's teacher with information that is relevant to the educational programs offered at St. Thomas More. The cost of the screening program is \$50.

In order for your child to participate in this screening program at St. Thomas More, please complete the information below and return it to the school. Following the screening, feedback of your child's performance will be provided over the phone and by email.
